British Library Cataloguing in Publication Data
A catalogue record for this book is available from the British Library

Front cover photo: Youths explore the devastation left by Turkey's military and police in the city of Farqîn in 2015. Photo provided by friends in Farqîn.

Map of Kurdistan: This map was made with the collaborative input of members of the Kurdish Community Centre in Harringey and was collated and illustrated by Mia Gubbay. It is based on ongoing dialogues surrounding cultural geographical interpretations of the region and thus, might be better viewed as a moment rather than a conclusion. Mia has been working on a longstanding counter-mapping project with London based Kurdish participants.
